Medicare Rights and Protections

14

Lesson 2 explains the additional rights you have when enrolled in Original Medicare, including

- Original Medicare
- Medigap
- Appeals process
- Notices

Your Rights in Original Medicare

- See any participating doctor or specialist
- Go to any Medicare-certified hospital
- Get information when Medicare doesn't pay
 - Notices
 - Appeal rights

04/02/2012

Medicare Rights and Protections

15

Your rights when you are enrolled in Original Medicare include the following

- The right to see any participating doctor or specialist (including women's health specialists)
- Go to any Medicare-certified hospital
- Get certain information, notices, and appeal rights that help you resolve issues when Medicare doesn't pay for health care

Medigap Rights in Original Medicare

- Buy a Medigap policy
 - Also called Medicare Supplemental Insurance
 - Guaranteed issue rights
 - In your Medigap Open Enrollment Period an insurance company
 - ❑ Can't deny you Medigap coverage
 - ❑ Can't place conditions on coverage
 - ❑ Must cover pre-existing conditions
 - ❑ Can't charge more because of past or present health problems
 - Some states give additional rights

04/02/2012

Medicare Rights and Protections

16

Your rights when you are enrolled in Original Medicare include the following:

- Buy a Medigap (Medicare Supplemental Insurance) policy.
 - In some situations, you have the right to buy a Medigap policy. A Medigap policy is a health insurance policy sold by private insurance companies to fill the “gaps” in Original Medicare coverage, such as coinsurance amounts.
 - Medigap policies must follow Federal and state laws that protect you. The front of the Medigap policy must clearly identify it as “Medicare Supplement Insurance.”
 - Medigap insurance companies in most states (except Massachusetts, Minnesota, and Wisconsin) can only sell you a “standardized” Medigap policy. These policies are identified by the letters A,B,C,D,F,G,K,L,M, and N.
 - ❑ The benefits in any Medigap plan identified with the same letter are the same regardless of which insurance company you purchase your policy from.
 - You have the right to buy a Medigap policy during your Medigap open enrollment period. While the insurance company can't make you wait for your coverage to start, it may be able to make you wait for coverage of a pre-existing condition.

When you have guaranteed issue rights, the Medigap plan

- Can't deny you Medigap coverage or place conditions on your policy
- Must cover you for pre-existing conditions
- Can't charge you more for a policy because of past or present health problems

Some states offer additional rights to purchase Medigap policies.

NOTE: Module 3, *Medigap*, describes these situations.

Appeal Rights in Original Medicare

- File an appeal
 - A service or item isn't covered
 - Payment for a service or item is denied
 - Question amount Medicare paid

04/02/2012

Medicare Rights and Protections

17

In Original Medicare, you have the right to a fair, timely, and efficient appeals process.

You can file an appeal if

- A service or item you got isn't covered and you think it should be
- Payment for a service or item is denied and you think Medicare should pay for it
- You question the amount that Medicare paid for a service

How to Appeal in Original Medicare

- “Medicare Summary Notice” (MSN) will tell you
 - Why Medicare didn't pay
 - How to appeal
 - Where to file your appeal
 - How long you have to appeal
- Collect information that may help your case
- Keep a copy of everything you send to Medicare

04/02/2012

Medicare Rights and Protections

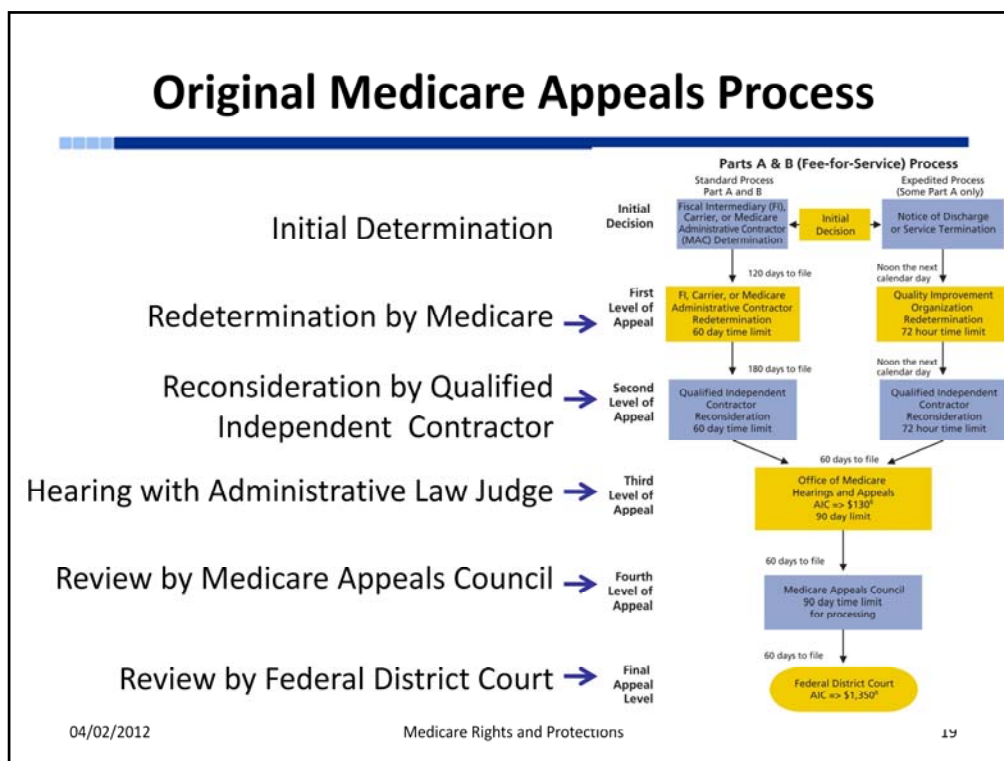

18

In Original Medicare, when you get a Medicare-covered item or service, you will get a “Medicare Summary Notice” (MSN). This notice will tell you

- Why Medicare didn't pay
- How to appeal
- Where to file your appeal
- How long you have to appeal

If you decide to appeal, ask your doctor, health care provider, or DME (durable medical equipment) supplier for any information that may help your case. Keep a copy of everything you send to Medicare as part of your appeal.

Original Medicare Appeals Process

There are **five** levels in the appeals process in Original Medicare. Look at the job aid section of your resource card or the National Medicare Training Program website for a chart of the Part A, B, C, and D Appeals Processes.

There is a standard process and an expedited process. It is important to note that for an expedited appeal, a provider must decide to terminate services or discharge you.

1. **Redetermination by the company that handles claims for Medicare within 120 days** from the date you get the MSN. Details are on the MSN.

2. **Reconsideration by a Qualified Independent Contractor (QIC)** (a contractor that didn't take part in the first decision). Details are included in the redetermination notice.

Contact your Quality Improvement Organization (QIO) no later than noon the day before Medicare-covered services end to request a fast appeal.

3. **Hearing before an Administrative Law Judge (ALJ) (the amount of your claim must meet a minimum dollar amount, which is updated yearly: \$130 in 2012).** Send the request to the ALJ office listed in the reconsideration notice.

4. **Review by the Medicare Appeals Council (MAC).** Details on how to file are included in the ALJ's hearing decision. There is no minimum dollar amount in order to get your appeal reviewed by the Medicare Appeals Council.

5. **Review by a Federal district court.** To get a review by a Federal court, the remaining amount in controversy of your case must meet a **minimum dollar amount, which is updated yearly: \$1,350 in 2012.**

NOTE: This chart is available in the corresponding workbook (see Appendix A).

Fast Appeals

- Ask your provider for information related to your case
- Call the Quality Improvement Organization
 - To request a fast appeal
 - No later than listed on the notice
- If you miss the deadline
 - You still have appeal rights

04/02/2012

Medicare Rights and Protections

20

You may ask your doctor for any information that may help your case if you decide to file a fast appeal.

You must call your local QIO to request a fast appeal no later than noon on the day before your notice says your coverage will end.

- The number for the QIO in your state should be on your notice. You can also call 1-800-MEDICARE (TTY users should call 1-877-486-2048).

If you miss the deadline, you still have appeal rights:

- If you have Original Medicare, call your local QIO.
- If you are in a Medicare Advantage plan, call your plan. Look in your plan materials to get the telephone number.

Contact your local SHIP if you need help filing an appeal.

Protection from Unexpected Bills

▪ **Advance Beneficiary Notice of Non-Coverage (ABN)**

- Given by health care provider or supplier
- Says Medicare probably (or certainly) won't pay for an item or services
- Used only in Original Medicare
- Not required for items or services excluded under law
- Will ask you to choose whether to get services
- Will ask you to confirm you read/understood notice

04/02/2012

Medicare Rights and Protections

21

You are protected from unexpected bills. If your health care provider or supplier believes that Medicare won't pay for certain items or services, in many situations he or she will give you a notice that says Medicare probably (or certainly) won't pay for an item or service. This is called an Advance Beneficiary Notice of Noncoverage (ABN). The ABN is used only in Original Medicare for Part B services and Part A services provided by hospices and religious non-medical health institutes.

Doctors and suppliers are not required to give you an ABN for services Medicare never covers (i.e., excluded under Medicare law), such as routine physical exams (except the annual wellness exam), routine eye exams, dental services, hearing aids, and routine foot care; however, they may voluntarily give you an ABN for items and services excluded by Medicare as a courtesy.

You may still get the service, you will be asked to choose an option and sign to say that you have read and understand the notice.

If you choose to get the items or services listed on the ABN, you will have to pay if Medicare doesn't. In some cases, the provider may ask for payment at the time the service is received.

Providers (including independent laboratories), physicians, practitioners, and suppliers will use the ABN (Form CMS-R-131) for situations where Medicare payment is expected to be denied because the item or service may not be reasonable and necessary.

NOTE: A copy of the ABN is provided in the corresponding workbook (see Appendix B).
It is also available on the web at www.cms.gov/BNI/02_ABN.asp

Types of ABNs

- Advance Beneficiary Notice of Noncoverage (ABN)
- Skilled Nursing Facility Advance Beneficiary Notice (SNFABN)
- Home Health Advance Beneficiary Notice (HHABN)
- Hospital Issued Notice of Non-coverage (HINN)

04/02/2012

Medicare Rights and Protections

22

There are four types of ABNs for people with Original Medicare. These notices explain that you may be liable for the cost of certain services under certain conditions. The notices include

- **Advance Beneficiary Notice of Noncoverage (ABN)** – only used for Part B services and for Part A when hospice services or services in a religious non-medical healthcare institute are provided

There are other types of liability notices for people with Original Medicare that are used in specific healthcare settings. Like the ABN, these notices explain that you may be liable for the cost of certain services under certain conditions. These notices include

- **Skilled Nursing Facility Advance Beneficiary Notice (SNFABN)** - only used for skilled nursing facility care
- **Home Health Advance Beneficiary Notice (HHABN)** - only used by home health agencies
- **Hospital Issued Notice of Non-coverage (HINN)** - used for inpatient hospital care when the hospital thinks Medicare may not pay for some or all of your care

You can view or print beneficiary notices at www.cms.gov/BNI/.

ABN Case Study

Mr. Brady goes to the lab July 1 to have his annual screening PSA test. There is a frequency limitation on Medicare payments for PSA testing (once yearly). The lab issues an ABN (see Appendix B). He checks Option 1 on the ABN and signs the form, and has his blood drawn for PSA testing. A week later he receives a bill from the lab for the PSA testing. The amount being billed is much more than he is usually charged. When he looks at his calendar, he sees his last test was in June of the year before.

ABN Case Study

Is Mr. Brady obligated to pay the bill?

1. Yes
2. No

02/22/2012

Medicare Rights and Protections

24

Is Mr. Brady obligated to the pay bill?

Answer: 1. Yes

By checking Option 1, He asserted that he wanted the service, wanted the physician to bill Medicare, and agreed to pay for the item/service up front.

The PSA test falls under frequency limitation for screening tests – so an ABN is appropriate. The beneficiary chose Option 1 which obligates him to pay the lab whether Medicare covers the test or not, and obligates him to pay in advance of Medicare's coverage decision as the lab is allowed to charge him for the test up front. Since choosing Option 1 requires the lab to submit a claim to Medicare on Mr. Brady's behalf, the lab should refund any payments made by him if Medicare covers the test.

ABN Case Study

Medicare denied payment because Mr. Brady exceeded the frequency limitation for this test. The lab bill exceeds the allowable Medicare amount by \$30. What amount should he pay to the lab?

1. Only the allowable Medicare amount
2. The total amount
3. \$30

02/22/2012

Medicare Rights and Protections

25

Answer: B (the entire amount the lab billed Mr. Brady for the PSA, which could be the usual and customary fee for non-Medicare patients).

Since the service is not covered by Medicare, charges are not limited to Medicare allowable amounts (i.e. limiting charge), the lab may charge the beneficiary the usual and customary amount for non-Medicare patients.

3. Your Rights in Medicare Advantage Plans or other Medicare Health Plans

- Rights in Medicare Advantage Plans (Part C) or other Medicare Health Plans

04/02/2012 Medicare Rights and Protections 26

In addition to the rights described in the first section, you have additional rights when you are enrolled in a Medicare Advantage Plan (like an HMO or PPO) or other Medicare health plan.

Rights in Medicare Advantage Plans (Part C) or other Medicare Health Plans

- To choose health care providers
- To get a treatment plan from your doctor
 - For complex or serious conditions
 - Directly see specialists as often as necessary

04/02/2012

Medicare Rights and Protections

27

If you're in a Medicare health plan, in addition to the rights and protections previously listed in the first section, you have the right to

- Choose health care providers within the plan, so you can get health care you need.
- Get a treatment plan from your doctor if you have a complex or serious medical condition. A treatment plan lets you directly see a specialist within the plan as many times as you and your doctor think you need. Women have the right to go directly to a women's health care specialist without a referral within the plan for routine and preventive health care services.

Rights in Medicare Advantage Plans (Part C) or other Medicare Health Plans

- To know how your doctors are paid
- To get a coverage decision or coverage information
- A fair, efficient, and timely appeals process
 - 5 levels of appeal
 - Decision letter sent explaining further appeal rights
 - Automatic review of plan reconsideration
 - By Independent Review Entity
- To file a grievance about concerns or problems

04/02/2012

Medicare Rights and Protections

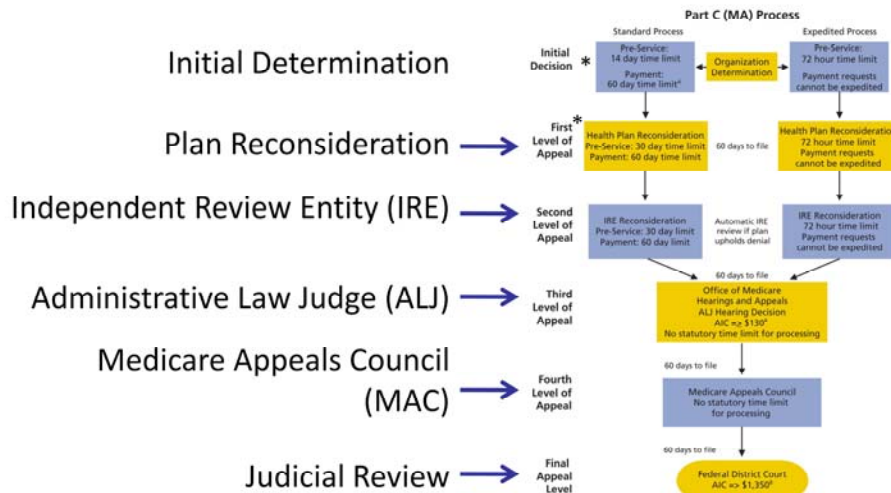

28

If you're in a Medicare health plan, in addition to the rights and protections previously in the first section, you have the right to

- Know how your doctors are paid if you ask your plan. Medicare doesn't allow a plan to pay doctors in a way that interferes with you getting needed care.
- Before you get a service or supply, you can call your plan to find out if it will be covered or get information about your coverage rules.
- A fair, efficient, and timely appeals process to resolve differences with your plan. You have the right to ask your plan to provide or pay for a service you think should be covered, provided, or continued.
 - The appeals process consists of 5 levels
 - If coverage is denied at any appeal level, the enrollee will receive a letter explaining the decision and instructions on how to proceed to the next appeal level
 - If the plan continues to deny coverage at the reconsideration level, the appeal is automatically sent to the Part C Independent Review Entity (IRE)
 - File a grievance about other concerns or problems with your plan. Check your plan's membership materials, or call your plan to find out how to file a grievance.
 - Get a coverage decision or coverage information from your plan before getting services.

See *Medicare Rights & Protections (CMS Publication #10112)* for more details.

Medicare Part C Appeals Process

*These pre-service timeframes include a possible extension of up to 14 days

04/02/2012

Medicare Rights and Protections

29

This chart shows the appeal process for Medicare Advantage Plan or other Medicare health plan enrollees. The time frames differ depending on whether you are requesting a standard appeal, or if you qualify for an expedited (fast) appeal.

If you ask your plan to provide or pay for an item or service and your request is denied, you can appeal the plan's initial decision (the "organization determination"). You will get a notice explaining why your plan denied your request and instructions on how to appeal your plan's decision.

There are five levels of appeal. If you disagree with the decision made at any level of the process, you can go to the next level if you meet the requirements for doing so.

After each level, you will get instructions on how to proceed to the next level of appeal.

The five levels of appeal are

- Reconsideration by the plan
- Reconsideration by the Independent Review Entity (IRE)
- Hearing with the Administrative Law Judge (ALJ)
- Review by the Medicare Appeals Council (MAC)
- Review by a Federal district court

NOTE: This chart is available as a handout in the corresponding workbook (see Appendix C).

Rights When Filing Plan Appeals

- Right to your case file
 - Call or write your plan
 - Plan may charge you a reasonable fee
 - For copying
 - For mailing
- Right to present evidence to support your case
- Right to expedited appeal
 - When supported by a physician

04/02/2012

Medicare Rights and Protections

30

If you are in a Medicare Advantage or other Medicare health plan and you are filing an appeal, you have certain rights. You may want to call or write your plan and ask for a copy of your file. Look at your *Evidence of Coverage*, or the notice you received that explained why you could not get the services you requested, to get the phone number or address of your plan.

The plan may charge you a fee for copying this information and sending it to you. Your plan should be able to give you an estimate of how much it will cost based on the number of pages in the file, plus normal mail delivery.

Lesson 4 – Rights in Medicare Prescription Drug Plans

- Guaranteed certain rights and protections

Medicare Rights and Protections

Lesson 4 explains your rights in Medicare Prescription Drug Plans.

Access to Covered Drugs

- Must ensure enrollees can get drugs they need
- Must include more than one drug in each classification
- Must pay for brand-name as well as generic drugs
- May have rules for managing access

04/02/2012

Medicare Rights and Protections

32

Medicare drug plans work to provide people with Medicare high-quality, cost-effective drug coverage. Medicare drug plans must ensure that their enrollees can get medically-necessary drugs to treat their conditions.

Each plan has a list of covered drugs called a formulary.

A plan's formulary may not include every drug you take. However, in most cases, a similar drug that is safe and effective will be available.

Plans must pay for both brand-name and generic drugs.

Covered drugs include prescription drugs, biological products, and insulin. Medical supplies associated with the injection of insulin, such as syringes, needles, alcohol swabs, and gauze are also covered.

Some of the methods that plans use to manage access to certain drugs include

- Formularies
- Prior authorization

Medicare Rights and Protections

33

Medicare drug plans must cover “all or substantially all” drugs in 6 categories to treat certain conditions, including

- Cancer medications
- HIV/AIDS treatments
- Antidepressants
- Antipsychotic medications
- Anticonvulsive treatments for epilepsy and other conditions
- Immunosuppressants

Medicare drug plans must cover all commercially available vaccines, including the shingles vaccine (but not vaccines such as the flu and pneumococcal pneumonia shots that are covered under Part B).

You or your provider can contact your Medicare drug plan for more information about vaccine coverage and any additional information the plan may need.

NOTE: Please see Appendices A - C for a list of oral anti-cancer drugs, oral anti-emetics prescribed for use within 48 hours of chemotherapy, and immunosuppressive drugs.

Transition Supply

- Plans must fill prescriptions not on plan's formulary
 - For new enrollees
 - For residents of long-term care facilities
- Immediate supply provided to new enrollee
 - Fill one-time, 30-day supply of current prescription
- While using transition supply
 - Work with doctor to switch to drug on plan's formulary
 - If medically necessary, request an exception
 - Don't wait until supply runs out to take action

04/02/2012

Medicare Rights and Protections

34

Some new members may already be taking a drug that's not on their plan's drug list or that is a step therapy drug. Medicare requires the plans to provide a standard 30-day transition supply of all Medicare-covered drugs, even if the prescription is for a drug that's not on the plan's drug list, is a step-therapy drug, or requires prior authorization. This gives you and your doctor time to find another drug on the plan's drug list that would work as well. However, if you have already tried similar drugs and they didn't work, or if the doctor believes that because of your medical condition you must take a certain drug, the doctor can contact the plan to request an exception to the formulary rules. If the doctor's request is approved, the plan will cover the drug. If the exception is not granted, you can file an appeal.

It is important to understand how to work with your plan's formulary and to plan ahead. If you receive a transition supply, you shouldn't wait until that supply is gone to take action. You should talk to your doctor about

- Prior authorization (if necessary)
- Safe and effective alternative drugs that may also save you money
- Requesting an exception, if necessary for your condition

You should contact your drug plan with any questions about what is covered by the plan.

NOTE: In most cases with step therapy drugs, the plan member must first try certain less-expensive drugs that have been proven effective for most people with that condition.

Request a Coverage Determination

- You, your representative, or the prescriber
 - Can request a coverage determination
 - If your pharmacist or plan tells you either
 - A drug you believe should be covered isn't covered
 - A drug is covered at a higher cost than you think you should have to pay
 - You have to meet a plan coverage rule before it's covered
 - Such as prior authorization
 - It won't cover a drug on the formulary
 - Because the plan believes you don't need it

04/02/2012

Medicare Rights and Protections

35

You, your representative, your doctor, or other prescriber can request (orally or in writing) that your plan cover the prescription you need. You can request a coverage determination (either before or after you receive the drug) if your pharmacist or plan tells you one of the following

- A drug you believe should be covered isn't covered.
- A drug is covered at a higher cost than you think you should have to pay.
- You have to meet a plan coverage rule (such as prior authorization) before you can get the drug you requested.
- It won't cover a drug on the formulary because the plan believes you don't need the drug.

Request an “Exception”

- You, your representative, prescriber request if
 - You think the plan should cover a drug not on its formulary
 - When other formulary options won’t work for you
 - Your prescriber thinks a coverage rule should be waived
 - i.e.; prior authorization, quantity or dosage limits
 - You think you should pay less
 - For a more expensive drug

04/02/2012

Medicare Rights and Protections

36

You, your representative, your doctor, or other prescriber can request a coverage determination called an “exception” if:

- You think your plan should cover a drug that’s not on its formulary because the other treatment options on your plan’s formulary won’t work for you.
- Your doctor or other prescriber believes you can’t meet one of your plan’s coverage rules, such as prior authorization, step therapy, or quantity or dosage limits.
- You think your plan should charge a lower amount for a drug you’re taking on the plan’s non-preferred drug tier because the other treatment options in your plan’s preferred drug tier won’t work for you.

If you request an exception, your doctor or other prescriber will need to give a supporting statement to your plan explaining why you need the drug you’re requesting. Check with your plan to find out if the supporting statement is required and if it must be made in writing. The plan’s decision-making time period begins once your plan gets the supporting statement.

Request an Exception

- Your prescriber may need to
 - Call or send a supporting statement
 - Ask your plan for their process
- You may file a standard or expedited request
- You may appeal if plan denies exception request
- Work with your prescriber
 - To find a drug on the formulary that works for you

04/02/2012

Medicare Rights and Protections

37

To request a coverage determination called an “exception,” your doctor or other prescriber may need to call or send your plan a supporting statement explaining why you need the drug you’re requesting. Check with your plan to find out if the supporting statement is required and if it must be made in writing. If a supporting statement is required, the plan’s decision-making time period begins once your plan gets the supporting statement.

You may file a standard or expedited (fast) request.

If you disagree with the decision, you have the right to appeal.

Tier Exception

- Allows access to non-preferred drugs
 - At lower cost of drugs in the preferred tier
 - If plan's preferred drug
 - Would not be as effective
 - Would have adverse effects

04/02/2012

Medicare Rights and Protections

38

If a plan uses a tiered cost-sharing structure to manage its Medicare drug benefit, it must provide exceptions procedures that permit enrollees to obtain a non-preferred drug at the more favorable cost-sharing level for drugs in the preferred tier.

A plan must grant a tier exception when it determines that the preferred drug for treatment of your condition would not be as effective for you as the requested drug and/or it would have adverse effects.

When a tier exception is approved, the plan must provide coverage at the cost-sharing level that applies for preferred drugs, but not at the generic cost-sharing level. Also, if a plan maintains a formulary tier in which it places very high cost and unique items, it may design its exception process so that drugs placed in that tier are not eligible for a tier exception.

Formulary Exceptions

- Access to Medicare-covered drugs
 - Not included on the plan's formulary or
 - Plan has special coverage rules
- Special rules include
 - Prior authorization
 - Quantity limits
 - Step therapy
- Plan can determine the level of cost sharing

04/02/2012

Medicare Rights and Protections

39

Formulary exceptions ensure enrollees have access to Medicare-covered drugs that are not included on the plan's formulary or for which the plan has special coverage rules. These special rules include prior authorization, quantity limits, and step therapy.

When a formulary exception is approved, the plan has the flexibility to determine the level of cost sharing that will apply for the non-formulary drug(s). For example, a plan sponsor may apply the non-preferred level of cost sharing for all non-formulary drugs approved under the exception process.

Formulary Exceptions

- Plan must grant a formulary exception if
 - All formulary alternatives not as effective and/or
 - Would have adverse effects
- Plan must grant an exception to a coverage rule
 - Coverage rule has been, or is likely to be, ineffective in treating the enrollee's condition or
 - Has caused, or is likely to cause harm, to enrollee

04/02/2012

Medicare Rights and Protections

40

A plan must grant a formulary exception when it determines that none of the formulary alternatives for treatment of the same condition would be as effective for the enrollee as the non-formulary drug and/or would have adverse affect. A plan must grant an exception to a coverage rule when it determines the coverage rule has been, or is likely to be, ineffective in treating the enrollee's condition, or has caused, or is likely to cause harm, to the enrollee.

Approved Exceptions

- Exception valid for remainder of the year if
 - Member is still enrolled
 - Prescriber continues to prescribe drug
 - Drug stays safe to treat person's condition
- Plan may extend coverage into new plan year
- Plan must notify enrollee in writing
 - Coverage not extended
 - Date coverage will end
 - Right to request new exception

04/02/2012

Medicare Rights and Protections

41

If an exception request is approved, the exception is valid for refills for the remainder of the plan year, so long as

- The member remains enrolled in the plan,
- The physician continues to prescribe the drug, **and**
- The drug remains safe for treating the person's condition.

A plan may choose to extend coverage into a new plan year. If it does not, it must provide written notice to the member either at the time the exception is approved, or at least 60 days before the plan year ends. The written notice must tell the member about the date coverage will end, the right to request a new exception, and the process for making a new exception request. If coverage isn't extended, the member should consider switching to a drug on the plan's formulary, requesting another exception, or changing plans during the Medicare Open Enrollment Period "also known as Open Enrollment."

- There are five levels of appeal in the appeals process.

Medicare Part D Levels of Appeal

04/02/2012

Medicare Rights and Protections

43

If you receive an unfavorable initial decision, you have the right to appeal the decision. There are 5 levels of appeal:

1. Redetermination from the Part D plan (sponsor)
2. Reconsideration by an Independent Review Entity (IRE)
3. Hearing before an Administrative Law Judge (ALJ)
4. Review by the Medicare Appeals Council
5. Review by a Federal district court

NOTE: This chart is available in the corresponding workbook (see Appendix D).

Required Notices

- At pharmacy counter
 - Whenever prescription is not filled as written
 - This is not a coverage decision
- After every coverage determination
- After every appeal decision
- Adverse decisions
 - Must include information on the next appeal level
 - Must include specific filing instructions
 - Must provide specific reason(s) for denial

04/02/2012

Medicare Rights and Protections

44

Plan sponsors must ensure that their network pharmacies provide the Pharmacy Notice whenever a prescription cannot be filled as written.

Plans sponsors are required to provide written notices after every coverage determination or appeal decision.

In addition, all other appeal entities are required to send written notice of decisions. If a decision is adverse, the notice will explain the decision, include information on the next appeal level, and provide specific instructions about how to file an appeal.

Health Plans' Disclosure of Personal Health Information

- Personal Health Information (PHI)
 - Plan may disclose relevant PHI to people you identify
 - Family member or other relatives
 - Close personal friend
 - Others (see examples on next slide)
- May disclose PHI only under certain conditions

04/02/2012

Medicare Rights and Protections

45

A health-care provider or plan, such as a Medicare drug plan, may disclose relevant protected health information (PHI) to someone who assists you, specifically regarding the drug benefit. However, the guidance applies to all providers and plans, not just drug plans. It's important to note that health plans are permitted, but not required, to make these disclosures.

Your plan may disclose relevant PHI to those identified by **you** as being involved in your care or payment, including the following:

- Family members or other relatives
- Close personal friends
- Others (see examples on next slide)

Your plan may disclose relevant PHI to those identified by you only under the following conditions:

- When you are present and agree or the plan reasonably infers from the circumstances that you do not object;
- When you are not present or are incapacitated, the plan may exercise its professional judgment to determine whether disclosure is in your best interest.

When Plans May Disclose PHI

- To a daughter or son
 - To resolve claim or payment issue for parent in hospital
- To human resources representative
 - If you are on the call or give permission by phone
- To Congressional office
 - That faxed your request for Congressional assistance
- To CMS
 - Information satisfies plan you requested CMS assistance

04/02/2012

Medicare Rights and Protections

46

A plan may disclose Personal Health Information (PHI) to

- The daughter of a person with Medicare who is resolving a claim or payment issue for her hospitalized mother;
- A human resources representative if the person with Medicare is on the line or gives permission by phone;
- A Congressional office or staff person that has faxed the person's request for Congressional assistance;
- CMS staff if the available information satisfies the plan that the individual requested CMS assistance

NOTE: PHI guidelines were published by the Office for Civil Rights, U.S. Department of Health and Human Services.

Medicare Rights and Protections

49

Lesson 5 explains your guaranteed rights when admitted to a hospital or skilled nursing facility, or you are receiving care from a non-institutional provider, such as home health, hospice, or a comprehensive outpatient rehabilitation facility (CORF).

Many of these rights and protections are the same whether you are in Original Medicare, Medicare Advantage Plan (like an HMO or PPO), or other Medicare health plan.

Right to Hospital Care

- Right to medically-necessary, Medicare-covered hospital care
 - To diagnose an illness
 - To treat an illness or injury
 - To get follow-up care
- You will receive a notice when admitted
 - To an inpatient hospital setting
 - An “Important Message From Medicare About Your Rights”

04/02/2012

Medicare Rights and Protections

50

All people with Medicare, including those in Medicare Advantage or other Medicare health plans, have the right to get all of the Medicare-covered hospital care they need to diagnose and treat their illness or injury, including any follow-up care they need after leaving the hospital.

When admitted to the hospital as an inpatient, you will receive a notice called an *Important Message From Medicare About Your Rights* and the hospital must provide you with a copy of the notice so that you know your rights as a hospital inpatient.

“Important Message from Medicare”

- Notice signed by you and copy provided
 - Explains your rights to
 - Get all medically-necessary hospital services
 - Be involved in any decisions
 - Get services you need after you leave the hospital
 - Appeal discharge decision and steps for appealing decision
 - Circumstances in which your hospital services may be paid for during the appeal

- Be involved in any decisions
- Get services you need after you leave the hospital
- Appeal discharge decision and steps for appealing decision
- Circumstances in which your hospital services may be paid for during the appeal

Plan Fast Appeals Process

With the Medicare Health Plan Fast Appeals Process:

- You have the right to ask the Quality Improvement Organization (QIO) to require your plan to provide or pay for a Medicare-covered service you think should be continued in a skilled nursing facility, from a home health agency, or in a comprehensive outpatient rehabilitation facility.
- Your provider must deliver a *Notice of Medicare Non-Coverage* at least 2 days before Medicare-covered SNF, CORF, or HHA care will end.
- If you think services are ending too soon, contact your Quality Improvement Organization (QIO) no later than noon the day before Medicare-covered services end to request a fast appeal.

See your Notice for how to contact your QIO and for other important information.

The QIO must notify you of its decision by close of business of the day after it receives all necessary information.

The plan must give you a *Detailed Explanation of Non-Coverage*. This notice will explain why the coverage is being discontinued.

You have the right to ask for a reconsideration by the QIC (Qualified Independent Contractor) if you are dissatisfied with the results of the fast appeal.

Medicare Rights and Protections

62

As people live longer, there is a greater chance that they may not be able to make their own health care decisions at some point in time. Alzheimer's and other diseases affect your ability to make health care decisions.

Making future health care decisions is another health care protection available to anyone, not just people with Medicare. Check for your state's requirements.

Advance directives are legal documents that allow you to put in writing what kind of health care you would want if you were too ill to speak for yourself. Advance directives most often include; a health care proxy (durable power of attorney), a living will, and after-death wishes.

Talking with your family, friends, and health care providers about your wishes is important, but these legal documents ensure your wishes are followed. It's better to think about these important decisions before you are ill or a crisis strikes.

A health care proxy (sometimes called a durable power of attorney for health care) is used to name the person you wish to make health care decisions for you if you aren't able to make them yourself. Having a health care proxy is important because if you suddenly aren't able to make your own health care decisions, someone you trust will be able to make these decisions for you.

A living will is another way to make sure your voice is heard. It states which medical treatment you would accept or refuse if your life is threatened, e.g.; dialysis for kidney failure, a breathing machine if you can't breathe on your own, CPR (cardiopulmonary resuscitation) if your heart and breathing stop, or tube feeding if you can no longer eat.

Medicare Ombudsman

- Works to ensure people with Medicare
 - Get information and help they need
 - Understand their Medicare options
 - Apply their rights and protections
 - Reports to Congress
- May identify and track issues
 - Payment policies
 - Coverage policies

04/02/2012

Medicare Rights and Protections

63

Another protection for people with Medicare is the Medicare Beneficiary Ombudsman's office. The Medicare Beneficiary Ombudsman works to ensure that people with Medicare get the information and help they need to understand their Medicare options and to apply their rights and protections.

The Ombudsman may identify issues and problems in payment and coverage policies, but doesn't advocate for any increases in program payments or new coverage of services.

Medicare Ombudsman

- Ensures prompt organization response
 - Need help filing an appeal
 - Have a problem joining/leaving MA Plan
 - Have questions about Medicare premiums
 - Need help understanding rights/protections

The Medicare Ombudsman works to make sure the organizations that should help you with your complaints, appeals, grievances, or questions about Medicare work the way they should and respond to you promptly.

For example, the Medicare Beneficiary Ombudsman can help in the following situations.

- You need help to file an appeal
- You have a problem joining or leaving a Medicare Advantage Plan (like an HMO or PPO) or other Medicare plan, or a Medicare Prescription Drug Plan
- You have questions about Medicare premiums
- You need help understanding your Medicare rights and protections
